LT-01
Liquid level probe

LT – 01 1.5m

- Cable length 1.5m:blue-1.5m\red-3m\white-3.5m
- Design number
- Liquid level probe

Applications

- Probe for matching liquid level relay.

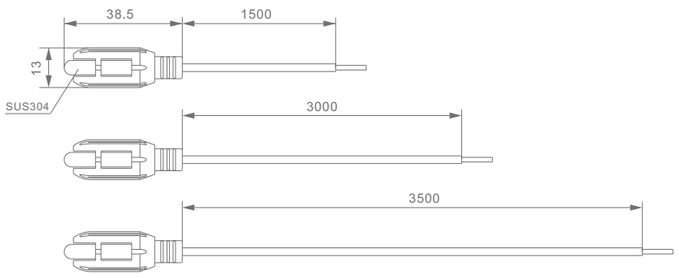

Feature

- The metal part of the probe is made of 304 stainless steel.
- Cables of 3 different colors are used to distinguish different electrodes.
- The manufacturing material has good corrosion resistance.

Technical parameters

	LT-01
Probe material	304 stainless steel
Cable material	Copper core PVC(20AWG)
Plastic material	PA66
Operating temperature	0°C to +60°C（32°F to 140°F)
Storage temperature	-35°C to +75°C（-31°F to 167°F)

Dimensions(mm)

TS-N
Temperature sensor

TS – N 0.5m

- Cable length 0.5m；1m；2m；3m；5m；
- Design number
- Temperature sensor

Applications

- It is used to detect temperature and can be used together with temperature relay.

Feature

- Probe built-in high-precision NTC thermistor.
- The probe adopts waterproof design and can be used to detect water temperature.
- The cable adopts high temperature and corrosion-resistant silica gel..

Technical parameters

	TS-N
Probe material	304 stainless steel
Cable material	Copper core silica gel
Sensor type	NTC thermistor
Waterproof grade	IP68
Operating temperature	-40°C to +200°C（-40°F to 392°F)
Storage temperature	-40°C to +75°C（-40°F to 167°F)

Dimensions(mm)
