NewTrend CH8 Wi-Fi Modular Contactor Assemblies, 16-100A

These assemblies pair a WF-series Wi-Fi controller with a CH8 modular contactor. The selected current is the contactor rating; the controller remains a separately rated control device.

Configuration selection

Model: CH8 + WF-T02; Contactor current: 16A, 25A, 40A, 63A, 100A; Control voltage: AC 230V

Technical selection summary

Contactor choices	16A, 25A, 40A, 63A and 100A are shown across the source product photographs.
Controller marking	WF-T02 on the illustrated paired assembly; input 230V and output 230V, 2A.
Contactor coil	AC 230V, 50/60Hz in the illustrated assembly.
Wireless / app	2.4GHz Wi-Fi and Tuya Smart app in the source product-page specifications.
Installation	35mm DIN-rail modular assembly.
Antenna / construction	The source includes two different 100A assembly photographs, one with an external antenna. Confirm the required construction with the quotation.
Selection boundary	Pole count, contact arrangement and complete assembly order code must be confirmed for the selected current. A CH8 current reference alone is not a complete assembly order code.

Series reference image: it shows the 100A paired unit. Other current versions have different contactor widths. This assembly is not presented as a UL-approved combination.

Specify your enquiry

- Contactor current and load type.

- Pole/contact arrangement, required antenna construction, control supply and quantity.

Prepared technical reference for the website product. Values are limited to the documented version; a quotation confirms the exact supplied configuration.
