SHA IP65 Distribution Box with Transparent Cover

Technical reference · SNTELEC · 04 November 2026

SHA IP65 Distribution Box with Transparent Cover for protecting and organizing electrical components in wall-mounted assemblies. Match the listed enclosure dimensions, cable entries and installation conditions.

Parameter	Specification
Series / reference	SHA
Protection	IP65; IK09 as specified
Material	ABS / PC
Electrical reference	400V rated voltage; 690V insulation voltage; terminal rating 75A where supplied.
Supply scope	Enclosure housing; installed breakers, terminals, glands and other accessories must be specified separately.
Installation	Indoor/outdoor wall mounting; cable entries and cover seals must be correctly assembled.

Codes without a suffix and codes with a -P suffix are recorded separately with their own source dimensions. Do not assume they are mechanically interchangeable.

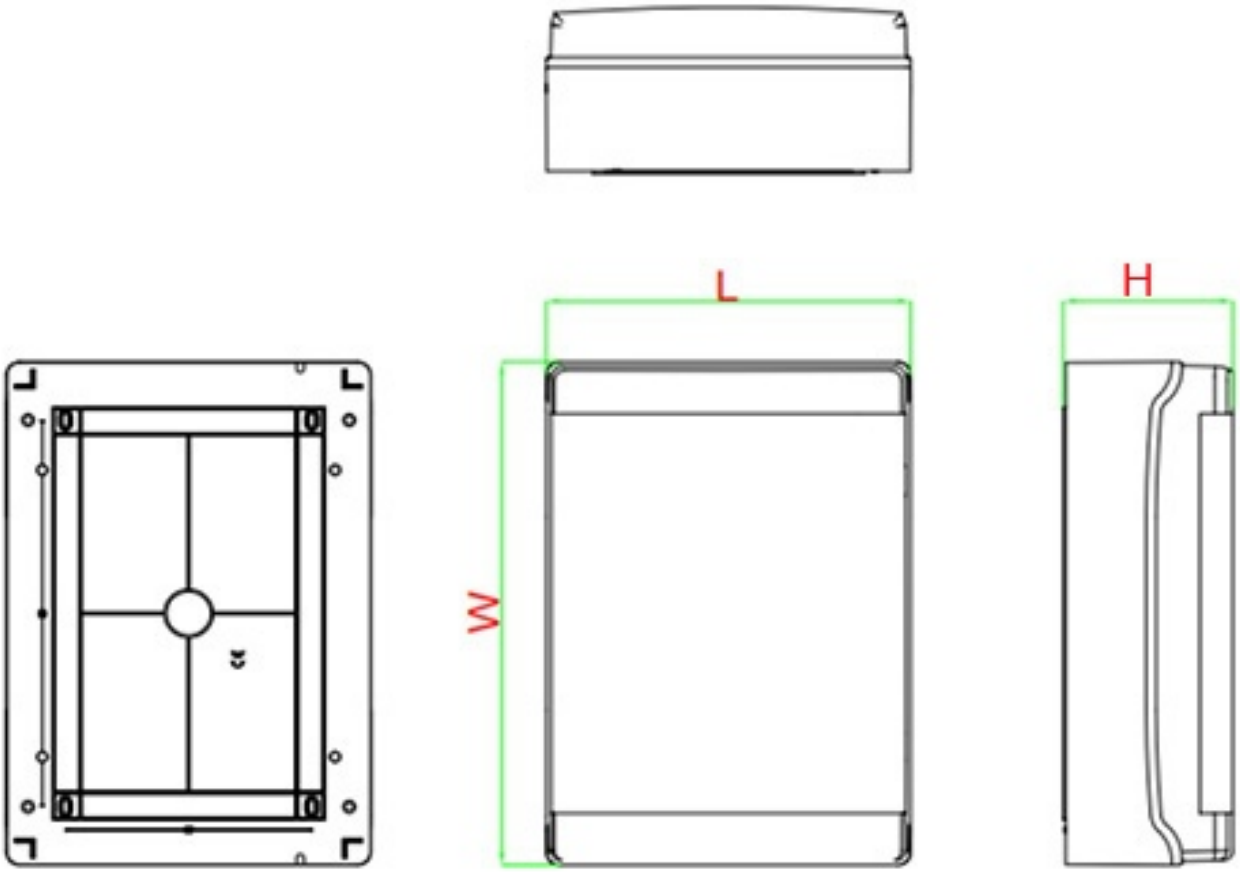

Documented ordering configurations

Original model	Configuration / dimensions
SHA4	142×205×97 mm
SHA8	215×209×119 mm
SHA12	296×256×140 mm
SHA18	410×285×140 mm
SHA24	298×420×140 mm
SHA36	298×570×140 mm
SHA54	569×413×138.5 mm
SHA72	878×413×160.4 mm
SHA-4P	206×143×100 mm
SHA-8P	210×215×120 mm
SHA-12P	260×298×140 mm
SHA-18P	285×410×140 mm
SHA-24P	420×298×140 mm
SHA-36P	570×298×140 mm
SHA-54P	569×413×138.5 mm

Original model	Configuration / dimensions
SHA-72P	878×413×160.4 mm

Compiled technical reference. Installation and supply scope must be confirmed for the selected original model. Enclosure ratings do not establish the rating or certification of a complete electrical assembly.
