SHK IP66 Hinged Junction Box with Metal Latches

Technical reference · SNTELEC · 04 November 2026

SHK IP66 Hinged Junction Box with Metal Latches for protecting and organizing electrical components in wall-mounted assemblies. Match the listed enclosure dimensions, cable entries and installation conditions.

Parameter	Specification
Series / reference	SHK
Protection	IP66; IK09 as specified
Cover / housing	ABS / PC versions; opaque or transparent cover must be specified
Access	Hinged cover with metal latches
Listed sizes	100×150×90 to 630×830×280 mm in the series size table.
Supply scope	Enclosure housing; installed breakers, terminals, glands and other accessories must be specified separately.
Installation	Indoor/outdoor wall mounting; cable entries and cover seals must be correctly assembled.

Only the original full codes explicitly shown on product pages are selectable. Other dimensions are enquiry items; no ordering code is inferred from a dimension.

Documented ordering configurations

Original model	Configuration / dimensions
SHK-211610	SHK-211610
SHK-203013	SHK-203013
SHK-121709	SHK-121709
SHK-101509	SHK-101509
SHK-151509	SHK-151509
SHK-172711	SHK-172711

Compiled technical reference. Installation and supply scope must be confirmed for the selected original model. Enclosure ratings do not establish the rating or certification of a complete electrical assembly.
