SHPZ IP65 Custom Distribution Enclosure, 4 Ways

Technical reference · SNTELEC · 04 November 2026

SHPZ IP65 Custom Distribution Enclosure for protecting and organizing electrical components in wall-mounted assemblies. Match the listed enclosure dimensions, cable entries and installation conditions.

Parameter	Specification
Series / reference	SHPZ
Protection	IP65
Modules	4-way configuration
Material	ABS shell / PC transparent door
Outline reference	Drawing header: 202 × 107 × 92.5 mm; confirm mounting and external projections from the drawing.
Supply scope	Enclosure housing; installed breakers, terminals, glands and other accessories must be specified separately.
Installation	Indoor/outdoor wall mounting; cable entries and cover seals must be correctly assembled.

Custom drilling and accessory content require an agreed drawing. Internal electrical equipment is not implied by the enclosure photograph.

Compiled technical reference. Installation and supply scope must be confirmed for the selected original model. Enclosure ratings do not establish the rating or certification of a complete electrical assembly.
